recently there has been a growing demand for diversity and inclusion in schools

worldwide to ensure effective learning for every student efforts have been made to support teachers in promoting diversity in classrooms but research shows that students with learning disabilities including autism spectrum disorder neurodevelopmental disabilities dyslexia and executive dysfunction still struggle to keep up despite having individualized education programs ieps these students are not receiving the necessary support they need to learn effectively in the classroom leaving them behind and often completely unprepared for their futures when intersectional statistics are taken into account students who have a learning disability and are among minority ethnic groups have even lower rates of earning a diploma than their counterparts changes in the educational system must be made to close this learning chasm and create a more equitable learning environment closing the educational achievement gap for students with learning disabilities increases awareness of the issue of inequalities in education for students with learning disabilities through improved training programs for teachers recommendations for policy changes and development of new strategies to close the gap between these students and their classmates the goal of this book is to educate and empower educators researchers and policymakers on how they can help students with learning disabilities thrive academically and emotionally it examines the barriers that prevent teachers from effectively providing instruction to these students this book covers topics such as achievement gaps student centered approaches and culturally responsive teaching and is ideal for educators professionals researchers special education professionals speech and occupational therapists disability service providers intervention strategists psychologists parents and local communities

this book provides research on the pedagogical challenges faced in recent years to improve the understanding of social media in the educational systems provided by publisher

this test prep is good for kids who are on the fence and having trouble passing or need to increase their margin these kids will often say i don t know where to start when explaining their confusion this book address that problem with three approaches 1 in contrast with the other study guides that use random questions in their practice exams this book collated the questions into chapters based on the logic to solve them the 8th grade book is divided into nine chapters they are logic arithmetic geometry fractions reading graphs and tables measurements including a ruler basic statistics order of operations and algebra this book teaches basics then goes into practice exams with word problems once the student is proficient with the questions organized into chapters then they are ready for random questions 2 this study guide has thousands of practice problems i have placed over 3100 videos on youtube showing you how to work the problems3 i reviewed several years of past exams and placed enfaces on the easiest and most common questions mastering these questions should yield a 75 to 80 if a student is already achieving this percentage the other guides or web site with random questions and covering all material might be best a book might be better for your student than the web sites for two reasons 1 the more common and easiest questions are using a ruler to measure the web designers don t know the size of your computer screen and can t determine if the student has measured correctly we can get a high percentage of these problems easily 2 when studying on a computer there are too many websites with the answers with a book parents can have greater assurance the work is being done this book is developed by a trained professional out of concern it is not the product of a large publishing house it is the results of one person who wants to help best regardsmark shannon

teacher education and practice a peer refereed journal is dedicated to the encouragement and the dissemination of research and scholarship related to professional education the journal is concerned in the broadest sense with teacher
