this book is not intended to be a professional grade color matching guide on the right hand pages you will find shade names shade numbers and the name of the person who named the shade you will also find hex rgb and cmyk values for each shade on the left hand pages you will find an illustration rendered in each shade of grey

crammed with fascinating facts expert advice and a wealth of essential information shades of grey will guide you through the minefield that is choosing exactly the right shade of grey paint

this book is literally fifty shades of grey or gray paper according to wikipedia in

Europe and the United States surveys show that grey or gray is the color most commonly associated with conformity, boredom, uncertainty, old age, indifference, and modesty. Only one percent of respondents chose it as their favorite color. Color is it grey or gray? Grey or gray is an intermediate color between black and white; it is a neutral or achromatic color, meaning literally that it is a color without color. The first recorded use of grey as a color name in the English language was in AD 700. Grey is the dominant spelling in European and Commonwealth English, although gray remained in common usage in the UK until the second half of the 20th century. Gray has been the preferred American spelling since approximately 1825, although grey is an accepted variant. This book starts with one black page and ends with one white page. In between are 50 fifty shades of grey paper. We'll reference the Photoshop RGB (Red Green Blue) color system. Using Photoshop, you get pure black when you completely remove all three colors (0 0 0); you get pure white when you mix fully saturated versions of all three colors together (255 255 255). You get a shade of grey or gray when you mix equal amounts of all three colors at percentages between 0 and 100, or equal integers between 0 and 255. The RGB color system conveniently gives 256 points of color: 0 to 255 (0 0 0 for black and 255 255 255 for white), that leaves 250 points in between, divided up by 50 shades, means that each shade increased by an increment of 5. Photoshop color pallet included with each shade for quick and easy reference. Six digit Photoshop hex codes included as well.

More than 150 million copies sold worldwide. Look for E. L. James's passionate new love story, *The Mister*, available now. When literature student Anastasia Steele goes to interview young entrepreneur Christian Grey, she encounters a man who is beautiful, brilliant, and intimidating. The unworldly, innocent Ana is startled to realize she wants this man, and despite his enigmatic reserve, finds she is desperate to get close to him. Unable to resist Ana's quiet beauty, wit, and independent spirit, Grey admits he wants her, too, but on his own terms. Shocked yet thrilled by Grey's singular, erotic tastes, Ana hesitates for all the trappings of success: his multinational businesses, his vast wealth, his loving family. Grey is a man tormented by demons and consumed by the need to control. When the couple embarks on a daring, passionately physical affair, Ana discovers Christian Grey's secrets and explores her own dark desires. This book is intended for mature audiences.
