financial organizations like many others are undergoing radical change this is affecting both

their organizational processes and the technology that supports those processes this book reports on the use of sociological ethnography in helping guide these changes both in terms of helping better understanding and redraw work processes and through providing more accurate and flexible understanding of the role technology plays it places the reported research in context by contrasting it with those approaches more commonly associated with change including business process engineering participative design and soft systems methodologies the book explains what are the benefits of ethnography as well as the potential it has in helping achieve more desirable change in any and all organizations financial services included the book will be of interest to all international researchers concerned with organizational and technological change as well as managers of organisational development it will also interest advanced students in sociology anthropology management science and organizational studies the authors have published widely in the various disciplines associated with organizational life and technology design and have built a considerable reputation for bringing new sociological insights into the organizational change literature

a new wave of the covid 19 pandemic is creating headwinds for the nascent economic recovery from the deep recession spurred by the pandemic s onset and related oil price shocks over the medium term reforms supporting improved governance economic diversification and resilience will help confront challenges from climate change and the global transition to low carbon economies gradually resulting in improved incomes job creation inequality and exit from fragility in the near term fiscal space to address these challenges is limited although debt sustainability was recently restored large liquidity risks and vulnerabilities remain due to arrears and on going negotiations with an external commercial creditor debt is classified as in distress the recent aiv consultation concluded on september 24 2021

the need for an understanding of accounting is now even more critical than ever for lawyers practicing in many areas including securities and corporate law and litigation in addition over the last several years the financial accounting standards board has made some landmark changes in the accounting rules in areas of interest to lawyers including the accounting for mergers and acquisitions the second edition of accounting and finance for lawyers includes important material on such areas as accounting for stock options and derivatives and the elimination of the pooling of interests method of accounting for acquisitions there is a discussion of the accounting implications of the use of so called special purpose entities finally a chapter on international accounting issues reflects the increasing globalization of business and accounting as in the first edition the basic building blocks of accounting are covered so that the material is accessible and useful to those with any level of accounting knowledge

this book contains essays written over the past 25 years about medieval urban communities and about the loyalties and beliefs of medieval lay people in general most writing about medieval religious political legal and social ideas starts from treatises written by academics and assumes that ideas trickled down from the clergy to the laity susan reynolds whether writing about the struggles for liberty of small english towns the national solidarities of the anglo saxons or the capacity of medieval peasants to formulate their own attitudes to religion rejects this assumption she suggests that the medieval laity had ideas of their own that deserve to be taken seriously
