this book reviews the important impact icts have on economic social and political development and provides analyses of icts for education commerce and governance provided by publisher

intended as supplemental reading in courses on theories of development this book augments traditional core texts by providing students with more depth on about two dozen recent and emerging theories that have appeared over the past 20 years this period has seen a decline of the traditional grand theories that attempt to apply to all people all the time in favor of micro theories that focus more on individual differences so a book like this actually points the way toward the future rather than dryly reviewing the past in addition the author inspects the changing ways in which the concept of theory itself has been interpreted during this period and he concludes with a chapter suggesting future directions

this book utilises a human development and capability approach to examine the role of higher education in the context of tanzania the author considers decolonisation debates as they relate to african concerns in order to make a case for systems design and implementation implications for decolonising higher education institutions the book will be of interest to students scholars and policymakers in the field of higher education

today s world is characterized by a set of overarching trends that often come under the rubric of social change in this innovative volume rainer k silbereisen and xinyin chen bring together for the first time international experts in the field to examine how changes in our social world impact on our individual development divided into four parts the book explores the major socio political and technological changes that have taken place around the world from post from the rapid upheavals in 1990s europe to the gradual changes in parts of east asia and explains how these developments interplay with human development across the lifespan human development and social change is a useful resource for students and researchers involved in all areas of human development including developmental psychology sociology and education

this handbook responds to the needs and aspirations of current and future generations of development economists by providing critical reference material alongside or in relation to

mainstream propositions despite the potential of globalisation in accelerating growth and development in low and middle income countries through the spread of technology knowledge and information its current practice in many parts of the world has led to processes that are socially economically and politically and ecologically unsustainable it is critical for development economists to engage with the pivotal question of how to change the nature and course of globalisation to make it work for inclusive and sustainable development applying a critical and pluralistic approach the chapters in this handbook examine economics of development paths under globalisation focusing on sustainable development in social environmental institutional and political economy dimensions it aims at advancing the frontier of development economics in these key aspects and generating more refined policy perspectives it is critically reflective in examining effects of globalisation on development paths to date and in terms of methodological and analytical approaches as well as forward thinking in policy perspectives with a view to laying a foundation for sustainable development

theoretical and statistical methodology to examine the links between economic growth and human development in maharashtra

the book makes a significant contribution to critical higher education studies specifically to graduate employability research and to capabilities and education research the book moves beyond the simplistic conception of alleged gaps in graduate skills and mismatches between employers and universities and instead provides an innovative multi dimensional and intersectional human capabilities conceptualisation of graduate employability the book challenges an individualised notion of employability instead locating employability issues in social and economic conditions and argues that employability choices cannot be divorced from inequality qualitative and quantitative data from multiple case study universities in south africa are used to explore the perceptions and experiences of diverse students lecturers support officers and employers regarding what each university is doing or should be doing to enhance graduate economic opportunities and contribute to inclusive development the book will be highly relevant to students scholars and researchers in the fields of education and sociology particularly those with an interest in graduate employability

traditional understandings of economic development in low and mid income countries have largely been influenced by the economic narrative of western official development assistance oda within

this framework compliance with macroeconomic orthodoxy and early integration in global economic governance regimes are presented as enabling conditions to reach enhanced and sustainable levels of economic growth and social betterment yet this narrative often fails to answer fundamental questions surrounding relational dynamics between the economies of oda beneficiary countries and the geg regimes they are asked to join bringing together contributions by government officials academics and development practitioners this edited volume explores quantitative and qualitative approaches to socio economic analysis in low and mid income countries highlighting the conditions under which international economic policies and institutions can foster or hinder their socio economic growth in particular contributions address the impact of both west and china inspired international economic regimes on value adding capacity trade investments job creation and social development thus advancing the debate on what policy and legal provisions should low and mid income countries adopt in order to maximize the benefits and minimize the costs deriving from joining international economic regimes a comprehensive investigation of both sides of the global economic governance and human development relationship this book will interest scholars practitioners and graduate students working in the areas of international relations international political economy global governance international economics development studies and human security

designed for the mainstream human development course this chronologically organized text combines research and applications with real life examples to help students apply the material to realistic situations thorough coverage of cross cultural topics and issues facing the disabled in addition to exceptionally good coverage of health issues and applications has helped to make human development stand apart from the competition the ninth edition like its predecessors is both academically rigorous and very student friendly the authors clear accessible writing style guides students through the various topics of human development with the help of a strong pedagogical program
