this book argues that teachers of multiple languages tmls form a distinct group of language teachers and that the study of this largely overlooked demographic group can reveal new insights into how we perceive and research language teachers the book highlights the narratives of three tmls from diverse global contexts examining their journeys in navigating their careers as well as traversing multiple worlds and developing additional ways of being through new identities beliefs and emotions the author offers new globally relevant insights for language teaching research at individual pedagogical and institutional level and demonstrates that teaching multiple languages is an emerging transnational phenomenon that cuts across age languages countries institutions and career stages by furthering our understanding of why and how some multilingual language teachers have expanded and changed their careers through teaching additional languages the book offers a new perspective on how language teaching careers are changing in an increasingly globalized multilingual world

an absolutely unique work in linguistics publishing full of beautiful maps and authoritative accounts of well known and little known language encounters essential reading and map viewing for students of language contact with a global perspective prof dr martin haspelmath max planck institut für evolutionäre anthropologie the two text volumes cover a large geographical area including australia new zealand melanesia south east asia insular and continental oceania the philippines taiwan korea mongolia central asia the caucasus area siberia arctic areas canada northwest coast and alaska united states area mexico central america and south america the atlas is a detailed far reaching handbook of fundamental importance dealing with a large number of diverse fields of knowledge with the reported facts based on sound scholarly research and scientific findings but presented in a form intelligible to non specialists and educated lay persons in general

this book explores native speakerism in modern language teaching and examines the ways in which it has been both resilient and critiqued it provides a range of conceptual tools to situate ideological discourses and processes within educational contexts in turn it discusses the interdiscursive nature of ideologies and the complex ways in which ideologies influence objective and material realities including hiring practices and more broadly speaking unequal distributions of power and resources in closing it considers why the diffusion and consumption of ideological discourses seem to persist despite ongoing critical engagement by researchers and practitioners and proposes alternative paradigms aimed at overcoming the problems posed by the native speaker model in foreign language education

this comprehensive study of the japanese education system follows the japanese child from the kindergarten through the progressively more arduous and competitive environments of the elementary middle and high schools to the relative relaxation even hedonism of university life drawing on numerous surveys and on the author s personal experience it provides a wealth of information on teaching methodologies discipline class sizes the school day assessment and the national curriculum it also examines the role of the central ministry of education and the local boards in administering education throughout the country and outlines and assesses the government s recent programs of educational reform the behavior attitudes and expectations of pupils and parents are discussed in detail and placed within their political social and historical context revealing the complex cultural assumptions determining learning and socialization in japan this study thus contributes to the efforts of educators and sociologists to understand and evaluate different approaches to education in diverse cultures increasingly important in the global information age it shows how the american and japanese education systems are based on fundamentally different concepts of society democratic individualism and hierarchic collectivism respectively while discussing the positive and negative effects of each extreme it suggests that american educators might learn from a system in which truancy insolence violence and drug abuse are comparatively rare however the study shows how the traditional ideals of japanese education unquestioning acceptance self sacrifice and respect for superiors face serious challenges in a time of globalization and moral social and cultural change

in this important work major scholars on japan draw on ethnographic and experimental studies of learning throughout the lifespan to explore the japanese style of learning the reader will get an inside view of japanese teaching methods where the emphasis is on the process of learning rather than the end product in japan applications across

contexts from religion to music to mathematics to guidance are very differently handled than in the west contributors analyze various models of learning within and without the japanese school system the examples considered here allow the reader to understand better the rich coherence and variety of educational experiences in the broader social context a carefully articulated introduction and conclusion by the editors provide salient comparisons of east and west and cautions that we do not simplify our model of either one teaching and learning in japan will be of interest to educators japan scholars and to educational psychologists
