health fitness management third edition is the fundamental resource for the management and operation of health and fitness facilities and programs

this book makes the attempt to wed reason and the poetic the tool for this attempt is rational poetic experimentalism rpe which is introduced and explored in this book according to rpe it makes sense to look for poetic elements in human reality including reason outside of the realm of imaginative literature provocatively rpe contends that philosophy s search for truth has not been a great success so far so why not experiment with philosophical concepts and look for thought provoking ideas by employing the principles of rpe instead of fruitlessly searching for truths using conventional methods

graham on statutory interpretation is a combined monograph and casebook on the topic of legislative interpretation part i of the book focusing on interpretive theory proposes an organizing meta theory of statutory interpretation which combines aspects of originalism dynamism purposivism driedger s modern approach critical legal studies and other interpretive methods the resulting unified theory of statutory interpretation ties prevailing interpretive theories to specific patterns of language frequently found in legislation and offers both theoretical and practical reasons for deploying each theory where the relevant patterns of language arise part ii of the book focuses on traditional interpretive tools rules and maxims of statutory interpretation as well as specific canons that arise in the context of tax statutes and criminal law fitting them into the meta theory developed in part i and demonstrating how each tool has been and ought to be used by courts in canada and abroad filled with real world examples analyses of controversial cases student exercises and problems for discussion the book is a highly useful casebook for courses in statutory interpretation as well as a valuable scholarly resource for anyone interested in interpretive theory

the neuro rehab text that mirrors how you learn and how you practice take an evidence based approach to the neurorehabilitation of adult and pediatric patients across the lifespan that reflects the apta s patient management model and the who s international classification of function icf you ll study examination and interventions from the body structure function impairments and functional activity limitations commonly encountered in patients with neurologic disorders then understanding the disablement process you ll be able to organize the clinical data that leads to therapeutic interventions for specific underlying impairments and functional activity limitations that can then be applied as appropriate anytime they are detected regardless of the medical diagnosis
