The material, individual, and personal sides of Christianity are brought to the fore throughout this chronological survey. Every chapter begins with a first encounter in order to bring the subject matter to life for students, mirroring the author's approach in his successful book *Experiencing the World's Religions*. Since the terrorist attacks on 9/11, the political roles of religious institutions and groups have captured international attention. This book examines how religious institutions and organizations in various Asian countries are influencing democratic development and the shaping of government policies. *Religious Organizations and Democratization* covers Taiwan, Hong Kong, Mainland China, Korea, Thailand, the Philippines, Malaysia, Indonesia, and Japan. The chapters specifically address the engagement of Christian, Buddhist, Muslim, and other religious organizations in the advancement and/or hindrance of democratization in the region. The contributors consider such questions as: why have some religious organizations played a decisive role in democratic transitions while others remained politically dormant and other still acted in conservative alliances to block democratic development? Why did some religious organizations that once were active and instrumental to democratic change lose their political vitality as soon as civil liberties were successfully introduced and why did other religious organizations, irrespective of their roles in the process of democratic transition, emerge as key political forces in the civil society?
