this book represents years of study its contents have been tested again and again in the classroom in classes composed in some instances of representatives of thirty six denominations however it is not supposed for a moment that it exhausts all the bible has to say on the topics treated much less that it takes up and exhausts every topic dealt with in the bible the bible is the one inexhaustible book this work is simply an attempt at a careful unbiased systematic thorough going inductive study and statement of bible truth the method of the book is rigidly inductive the material contained in the bible is brought together carefully scrutinized and then what is seen to be contained in it stated in the most exact terms possible exactness of statement is first aimed at in every instance then clearness of statement beauty and impressiveness must always yield to precision and clearness the scripture from which a proposition is deduced is always given before the proposition the methods of modern science are applied to bible study thorough analysis followed by careful

synthesis though no hebrew nor greek words appear in the work it is based upon a careful study of the original text as decided by the best textual critics especially tischendorf and westcott and hort in the new testament though other editors and the manuscripts themselves have been considered in some instances wherever possible the text of the authorized version has been given in many instances this was impossible as the revised version is manifestly much more exact had it appeared that the revised version would soon obtain that general acceptance and use which it seems to so richly deserve the author would have adopted it through out except in those rare instances where it is manifestly in error in very few instances indeed has it been necessary to adopt renderings differing from both the authorized version and the revised version and from the american appendix to the revised version some of the propositions in this book may appear new and even startling to many but it is believed that they fairly and exactly state the contents of the passages upon which they are based it is hoped that the book will prove of interest and help both to those who believe in the divine origin of the bible and to those who do not one of the most satisfactory ways of determining whether the bible is of divine origin or not is by finding out precisely what it teaches and whether there is one deep philosophy running through the book composed by such a multiplicity and variety of human authors the writer must confess that his own conviction that there was one author back of the many writers and that that one author was god has ever deepened as he studied just the suggestion of a few ways in which this book can be used with profit its most apparent use is as a classbook in bible theology its arrangement by sections and propositions having had such use in mind the book can also be used in family devotions by those who desire something more orderly systematic and thorough than the methods usually employed in this important but neglected department of christian culture it is hoped that it may be helpful also in private devotional study of the bible while the book aims to be scientific it is not cold too much devotional study of the bible is haphazard by the use of this book it can be made orderly thorough and progressive the author has received numerous letters from groups of believers where there were no churches and from other groups in various churches asking for a definite outline of bible study and trusts that this book may be helpful in many such cases why for example could not groups of christians who are shut out from ordinary church privileges gather together and study the bible itself with the help of this book

kevin giles has been writing on women in the bible for over forty years in this book what the bible actually teaches on women he gives the most comprehensive account to date of the competing conclusions to this question and the issues surrounding it to understand the bitter and divisive debate among evangelicals over the status and ministry of women it needs to be understood that those who since 1990 have called themselves complementarians argue that in creation before the fall god set the man over the woman thus the leadership of the man and the subordination of the woman in the home the church and wherever possible in the world the whole creation is the god given ideal that is pleasing to god it is this theology that kevin giles deconstructs and shows to be without a biblical foundation giles shows that he is fully conversant with the complementarian position and yet is unpersuaded by it he sees it as an appeal to the bible to preserve male privilege similar to the appeals to the bible to validate slavery and apartheid appeals to the bible made by some of the best reformed and evangelical biblical scholars and now seen to be special pleading carefully studying the limited number of texts on which complementarians predicate their theology of the sexes giles finds not one of them actually teaches what complementarians claim furthermore complementarians too often ignore the texts that are very difficult for them in this book the ordination of women gets only

passing mention the constant focus is on whether or not the bible subordinates women to men as an abiding theological principle
