radical ideologies revolutionary movements political upheavals legal frameworks and many such initiatives have been taken up to prove a woman's equality and uplift her status all over the world though the voices raised are loud and heard but the moot question is whether the word feminism in its true sense has been understood and implemented in the still very much patriarchal society of today the undercurrent answer to this question is echoed and retorted in this book on gender studies elaborating on the Indian woman this book comments on the condition of women from ancient India to the modern day India her transforming status the laws devised to protect her social taboos surmounting her and the changing social patterns that are being brought to nullify the gender differences be it at home within an office and within the society the book begins with a feminist approach to politics movements led by the feminists their treatment in literature autobiographies their contribution towards economic sectors their health education e governance and role towards environment a dedicated chapter elaborates on women in Tagore's work with original text excerpts in Bengali and their literal translations the final chapter deals with Indian women and their tryst with crime day in and out the unchanged age old laws which are in need of serious review and the role of media and society in providing them the due accreditation of being someone the book is intended for the students of gender studies political science English sociology and media studies

this state of the art collection brings together the latest research of eminent experts in the field it combines a wide sweep with focused analysis of gender dynamics at home and at work and the interaction between them a longitudinal and life course perspective underpins the authors' assessment of the current state of gender inequality and helps explain why some domains are more resistant to change than others this timely and innovative volume will be an excellent resource for academics and policy makers alike Miriam Glucksmann, University of Essex, UK. This meticulous book examines how gender inequalities in contemporary societies are changing and how further changes towards greater gender equality might be achieved the focus of the book is on inequalities in production and reproductive activities as played out over time and in specific contexts it examines the different forms that gendered lives take in the household and the workplace and explores how gender equalities may be promoted in a changing world gendered lives offers many novel and sometimes unexpected findings that contribute to new understandings of not only the causes of gender inequalities but also the ongoing implications for economic well being and societal integration this topical and interdisciplinary study by leading researchers in the field will appeal to course leaders researchers and postgraduate students in sociology economics public policy demography and

human geography social scientists interested in gender equality labour market behaviour and public policy will also find much to interest them in this fascinating book

the in depth analyses presented in this book have a dual focus 1 social mechanisms through which the gender wage gap gender inequality in the attainment of managerial positions and gender segregation of occupations are generated in japan and 2 assessments of the effects of firms gender egalitarian personnel policies and work life balance promotion policies on the gender wage gap and the firms productivity in addition this work reviews and discusses various economic and sociological theories of gender inequality and gender discrimination and considers their consistencies and inconsistencies with the results of the analysis of japanese data furthermore the book critically reviews and discusses the historical development of the japanese employment system by juxtaposing rational and cultural explanations this book is an english translation by the author of a book he first published in japanese in 2017 the original japanese language edition received two major book awards in japan one was the nikkei economic book culture award which is given every year by the nikkei newspaper company and the japan economic research center to a few best books on economy and society the other was the showa university s women s culture research award which is bestowed annually on a single book of research that promotes gender equality kazuo yamaguchi is the ralph lewis professor of sociology at the university of chicago

gender inequality in our changing world a comparative approach focuses on the contemporary united states but places it in historical and global context written for sociology of gender courses this textbook identifies conditions that encourage greater or lesser gender inequality explains how gender and gender inequality change over time and explores how gender intersects with other hierarchies especially those related to race social class and sexual identity the authors integrate historical and international materials as they help students think both theoretically and empirically about the causes and consequences of gender inequality both in their own lives and in the lives of others worldwide

this paper examines trends in indicators of gender equality and women s development using evidence derived from individual indicators and gender equality indices we extend both the united nations development program s gender development index and gender inequality index to examine time trends in recent decades the world has moved closer to gender equality and narrowed gaps in education health and economic and political opportunity however substantial differences remain especially in south asia the middle east and sub saharan africa the results suggest countries can make meaningful improvements in gender equality even while significant income differences between countries remain

in recent decades colombia has pursued a strategy to encourage gender equality as an important enabler of inclusive growth and national well being and to promote gender mainstreaming through institutions policies and tools this report assesses four main pillars of colombia s governance for gender equality analysing strengths and identifying areas for further improvement

when women have fewer opportunities than men to develop their capacities in an egalitarian way then we say that there is a gender gap although great conceptual and methodological advances have been achieved and national policies have been developed in some countries to put an end to gender inequalities what has really happened in general is an attenuation of those inequalities this book reviews research in the study of the gender gap and have included herein a statistical analysis on gender and ethnicity gender differences in second language learning the gender pay gap in the self employed in the u s evolutionary aspects of sex differences and gender disparities between men and

women scientists in academia

gender inequality is entrenched in the cultural political and market systems that operate at household community and national levels global changes in market access climatic conditions and the availability of natural resources intensify disparities in income in assets and in power among genders this book aims to explain these gender dynamics at macro and micro levels through gis and spatial analysis the first part of the book introduces key concepts of how to integrate gis in gender inequality research the second part presents more in depth case studies carefully selected such as mapping gender based violence gender inequality in the labor force refugee mapping etc

both women and men strive to achieve a work and family balance but does this imply more or less equality does the persistence of gender and class inequalities refute the notion that lives are becoming more individualised this book documents how gender inequalities are changing and how many inequalities of earlier eras are being eradicated

despite recent progress to improve gender equality in the czech republic several gender gaps persist in different areas of the society and economy this report offers evidence informed recommendations tailored to the czech context to improve governance and capacities for accelerating progress in gender equality

in the early 1970 s feminism promised to remake the world for women and create a new cultural landscape where women have equality with men but forty years later this attempted reboot has not occurred only a small minority of women have ever self identified as feminists and women overall are less happy today in many ways progress is now stalled has feminism failed or have we been thinking wrongly about gender issues all along both are true feminism sought too little systemic change and didn t build a national consensus that it should succeed while the book the end of men helped encourage the false illusion that we ve largely remedied gender inequality in america in fact we ve barely begun we need to rethink the effort and on many levels start over upside down draws on insights from biology psychology economics and political science this book itself is paradoxical it embraces the notion of gender differences but does not imagine the world necessarily being better if women were in charge rather upside down proposes a dozen public policy changes that could make the world a better place with the side effect of aiding women s advancement the book delves into the difficult divide of partisan politics and explains how various public policies affect women thus empowering individuals to effect change with their energies their money and their votes to set the stage for a new direction the book relies on peer reviewed scientific studies to describe eleven gender paradoxes circumstances that based on feminism s goals shouldn t have

happened but did each of these paradoxes helps explain the causes of women s continuing inequality in society illuminates the harms and suggests solutions did you know that as societies are becoming more egalitarian and behavior and opportunity are less constrained by gender personality differences between men and women are becoming greater and increasing advantages men have in attaining power and wealth this runs completely counter to the feminist view that such differences are purely cultural it has huge implications for women s competitiveness did you know that women in the u s are less happy today than they were forty years ago and that by many measures women s progress in business and government which should be steadily improving has completely stalled in the 21st century even more disturbing is research showing that in many workplace settings women discriminate against women more than men do based on eleven years of meticulous research upside down is filled with other surprising facts to support its conclusions for example did you know that mothers to be who skip breakfast are more likely to have daughters than those who don t even more curious is the way this mechanism explains why women are less prone to violence than men and on the topic of violence many people are aware of the role played by testosterone but did you know that a single dose often makes women more egocentric less trusting and less collaborative the book s proposals would increase women s access to opportunity influence and power for example part time careers should be available to all in every field family responsibilities are too big a counterweight to a full time career for many changing hearts and minds about gender issues will require advertising and public relations campaigns adopting the policies of countries where women have greater influence could help women gain influence in government here the book s unique formula for gender quotas in state legislatures also could accelerate change upside down charts a course for feminism to regain relevance and create real gender equality this deluxe edition gives readers access to original research papers on a wide range of gender issues the endnotes contain hundreds of web links to academic journal articles and newspaper stories

welcome to the world encompassing guide to addressing resolving gender inequality in the modern era this pocketbook guide offers simple explanations practical solutions and thoughtful insights making it an ideal resource for analysing gender inequalities around the globe our goal is to provide you with clear and comprehensive solutions to gender inequality in the modern world we must strive to master our own thoughts responses and behaviours as we have no control over others

attempts to eliminate or reduce gender inequality have been made by governments international organizations ngos policymakers and private organizations however the evidence still shows that the gender gap exists from womb to tomb from parental treatment to corporate leadership and even the

genders psychologically different identity for that matter the question however arises with laws and regulations formed on gender disparity bills becoming acts society becoming broader in their outlook and adopting inclusivity in terms of gender in different spheres are we still able to claim that we are addressing gender inequality enough this volume explores the disparity between genders in terms of the labor market and career advancement child rearing practices education financial literacy work life balance pay gaps and economic development to name a few areas it focuses on the robust themes of the gender gap from a modern perspective to enhance our understanding of gender inequality in today s world

issues in society is an invaluable series of books which contain previously published information sourced from newspapers magazines journals government reports surveys websites and lobby group literature the series offers up to date diverse information about the social issues shaping our changing world each book explores a range of facts and opinions providing the reader with a concise overview of the topic

contributors discuss some key challenges in achieving gender equality in education give examples of initiatives in a range of contexts and make recommendations for action they suggest that there is a more substantive goal to aim for than gender parity for an equitable education system which allows all individuals to develop their potential
