this book systematically explores the challenges and advancements in integrating intelligent technologies with ocean engineering with a particular focus on three core topics of fault diagnosis fault prognosis and maintenance for subsea production systems in harsh environments it specifically addresses subsea engineering focusing on the intersection with intelligent technologies in operation and maintenance and also appeals to scholars and engineers from various disciplines including mechanical engineering electrical engineering oil and gas production reliability engineering and other related fields this book introduces the latest algorithmic models for fault diagnosis prognosis and maintenance grounded in advanced methodologies such as big data digital twin bayesian networks it features comprehensive figures detailed tables and a novel

presentation style making complex research more accessible additionally this book stands out for its systematic approach to integrating cutting edge methodologies with practical applications providing practical insights and demonstrating foresight in the field of intelligent operation and maintenance for subsea production systems the book is intended for graduate students researchers practitioners industry engineers and maintenance professionals specializing in subsea engineering marine technology intelligent systems oil and gas production systems and alike

civil islam tells the story of islam and democratization in indonesia the world s largest muslim nation challenging stereotypes of islam as antagonistic to democracy this study of courage and reformation in the face of state terror suggests possibilities for democracy in the muslim world and beyond democratic in the early 1950s and with rich precedents for tolerance and civility indonesia succumbed to violence in 1965 muslim parties were drawn into the slaughter of half a million communists in the aftermath of this bloodshed a new order regime came to power suppressing democratic forces and instituting dictatorial controls that held for decades yet from this maelstrom of violence repressed by the state and denounced by conservative muslims an islamic democracy movement emerged strengthened and played a central role in the 1998 overthrow of the soeharto regime in 1999 muslim leader abdurrahman wahid was elected president of a reformist civilian government in explaining how this achievement was possible robert hefner emphasizes the importance of civil institutions and public civility but argues that neither democracy nor civil society is possible without a civilized state against portrayals of islam as inherently antipluralist and undemocratic he shows that indonesia s islamic reform movement repudiated the goal of an islamic state mobilized religiously ecumenical support promoted women s rights and championed democratic ideals this broadly interdisciplinary and timely work heightens our awareness of democracy s necessary pluralism and places indonesia at the center of our efforts to understand what makes democracy work

educational equity and quality are not only research issues which cut across different disciplines but are major determinants of socio economic and human development in both industrial and developing countries the status and role of mathematics a subject which has long enjoyed a privileged status in school curricula worldwide due to its perceived role in science and technology render

equity and quality in mathematics education at the heart of human development this is reflected by governments relatively large investments in improving the quality of mathematics education and extending it to marginalized and underprivileged groups the purpose of toward equity in quality in mathematics education is four fold first the book examines the constructs of equity and quality and their interdependence from different perspectives second it develops a conceptual framework for studying and analyzing the two constructs third it examines consolidates and re structures the literature on equity and quality in mathematics education finally using data from timss 2003 the book investigates the within and across country impact of the different equity related factors on mathematics achievement in a sample of countries representative of worldwide geographical and cultural regions towards equity in quality in mathematics education uses a multi dimensional conceptual framework to study and analyze issues in equity and quality the framework consists of five perspectives hypothesized as determinants of equity in quality in mathematics education mathematical societal educational ideological and genetic the framework can be thought of as a pyramid with mathematics as its base and the societal educational ideological and genetic perspectives as its faces thus each point within this pyramid represents a unique equity in quality situation i e with different coordinates with respect to mathematical societal educational ideological and genetic perspectives towards equity in quality in mathematics education is useful for teachers and researchers in mathematics education

this book addresses one of the most important issues in international relations how wars are ended the volume draws on the direct experience of both soldiers and academics who in each case have also been advisers on fighting and ending wars unlike more theoretical works the book draws on first hand experiences in the case studies which include the wars in iraq afghanistan sierra leone and indonesia among others the volume is constructed around a series of themes the first theme is why wars start and how they can be understood based on the assumption that knowing how and why wars start is fundamental to understanding how they might end the second is what sustains wars and what makes them difficult to end again once wars start understanding what keeps them going is critical to how to end them the third focuses on the role of external intervention in ending wars including as a belligerent partner in war as a peacemaking or peacekeeping force and as a mediator between warring

parties the fourth addresses the issue of ripeness and the right conditions for ending wars the fifth addresses the modalities for ending wars and creating peace with the sixth theme being focused on transitions to peace and what is required to help make those transitions successful the book will be of interest to students of military strategic and security studies peace studies and international relations

designing the best call center for your business examines all key aspects of opening and expanding a live agent call center with in depth coverage on facilities and workstation design site selection including communications and power backups f
