we assess food trade among and across two asian trading blocs the association of southeast asian nations asean and the south asian association for regional cooperation saarc and china using most recent innovations in the empirical trade model we find subpar trade for several countries but some over trading as well likely driven by weak economic fundamentals determining trade further we find that bangladesh philippines sri lanka and viet nam under export to china and to nearly all asean and saarc countries with the magnitude varying between 40 and 100 percent below the predicted trade levels while checking for competing explanations we identify trading pair time variant factors such as tariffs reducing the magnitude of under exporting of asean and saarc countries by 1 and 3 percent respectively we also highlight unobserved variables such as trust between countries as factors important for strong agricultural trade

traders have a tendency to over complicate many search for the latest new indicator that will give them an edge or a new trading strategy to deliver bigger wins the message of i the trading playbook i is to forget all of this and concentrate on three solid foundations to improve your trading performance simplicity focus on price action alone probabilities take trades where the odds are in your favour hard work and screen time put in the effort to build up your trading experience hard work and screen time is down to you but i the trading playbook i will guide you towards simplifying your trading and thinking in terms of probabilities michael gouvalaris describes two straightforward trading plans that eschew complicated indicators and focus on probable outcomes the first of these two plans the day trading playbook is based around ten different daily situations that can occur in the futures market between these ten daily setups every single scenario is accounted for you are shown how to determine what day type is in progress by studying that day s open and gap and then high probability and low probability price action for each day type are given alongside the ten day types the simple technical analysis tools of support and resistance and measuring market volatility are employed the second trading plan the swing trading playbook describes effective ways to identify the trend

how to find ideal spots to enter trades in the direction of the trend and also how to identify signals that warn of potential trend failure or reversals you will learn simple and highly effective tools for spotting high probability entries and exits for trades again basic technical analysis tools are employed including measured moves box theory and a b c waves the key benefits of both playbooks are that they give you a well defined plan to follow this alleviates many of the big mistakes traders make such as over trading and cutting winners too early or sitting in losing trades too long if you are on the lookout for some trading ideas to simplify your analysis and refine your approach i the playbook i is for you

expert advice on becoming a successful day trader day trading can be perilous or profitable depending upon the expertise of the trader in this no nonsense take no prisoners guide you learn how the market works and how to make it work for you from screening stocks to conducting technical analyses you learn everything active traders need to succeed in this tumultuous world including what goes on behind the scenes in the market how things can go wrong and how to reduce risk which kind of technical analyses work and why the best research and trading services to turn to for help the ins and outs of chart patterns like candlesticks triangles and head and shoulders with real life examples that illustrate the ups and downs inherent in this high risk high profit business this guide is all you need to trade wisely quickly and lucratively no matter how new you are to the challenging game of day trading
