in this work of historically informed political theory kimberly smith sets out to understand how nineteenth century americans answered the question of how the people should participate in politics did rational public debate the ideal that most democratic theorists now venerate transcend all other forms of political expression how and why did passion disappear from the ideology if not the practice of american democracy to answer these questions she focuses on the political culture of the urban north during the turbulent jacksonian age roughly 1830 50 when the shape and character of the democratic public were still fluid smith s method is to interpret in light of such popular discourse as newspapers and novels several key texts in nineteenth century american political thought frederick douglass s fourth of july speech and narrative angelina grimke s debate with catharine beecher frances wright s lectures and harriet beecher stowe s uncle tom s cabin such texts smith finds highlight many of the then current ideas about the extremes of political expression her readings support the conclusions that the value of rational argument itself was contested that the emergent enlightenment rationalism may have helped to sterilize political debate and that storytelling or testimony posed an important challenge to the norm of political rationality smith explores facets of the political culture in ways that make sense of traditions from whiggish resistance to protestant narrative testimony she helps us to understand such puzzles as the point of mob action and other ritualistic disruptions of the political
