this book is based on the author s 33 years of intensive fieldwork it chronicles a major movement that shaped the preservation policy in japan in the 1980s and 1990s providing thick descriptions of preservationists that are not available anywhere else in english it also provides clear answers to a series of pressing questions about preservationists are they building huggers are they selfish and myopic home owners or are they merely obstacles to urban planning and urban renewal since 1984 saburo horikawa professor of sociology at hosei university in tokyo has continuously studied the movement to preserve the otaru canal in otaru japan this book shows that the preservation movement was neither conservative nor an obstacle rather the movement sought to promote changes in which the residents place would continue to be theirs as such the word preservation does not mean the prevention of growth and

development but rather its control as is shown in this study preservation allows for and can even promote change the original Japanese version of this book published by the University of Tokyo Press has won 3 major academic awards most notably the Ishikawa Prize the highest award bestowed by the City Planning Institute of Japan it is extremely unusual that a sociology book should receive such important recognition from the city planning discipline

ideal for introduction to special education introduction to exceptionalities courses this supplementary text provides strategies pre service and in service teachers can use to apply the principles of universal design for learning UDL to their lesson planning UDL lesson planning considers up front potential barriers that could limit access to instruction for some learners and helps teachers brainstorm possible solutions before lessons begin the lessons included in this text are meant as a starting point for general education teachers who have students with special needs in their classrooms and can be adapted for K-12 learners with a wide range of challenges key features this text consists of lesson plans to address learners from ten major disability areas covered in every standard introductory textbook intellectual disabilities learning disabilities attention deficit hyperactivity disorder emotional or behavioral disorders autism spectrum disorders speech and language disorders hearing impairments visual impairments physical disabilities health disabilities and related low incidence disabilities and gifted and talented Metcalf provides one lesson plan at the elementary school level and one at the secondary level for each area of exceptionality
