aimed at advanced undergraduate or graduate physics students the book aims to give a working understanding of astronomy and gravitational waves as well as introducing the reader to the key concepts in cosmology and classical field theory

while aristotle acknowledges the connection between rhetoric biology and cognitive abilities scholarship continues to struggle to integrate the fields of rhetoric and neurobiology drawing on recent work in neurorhetoric this book offers a model that integrates multimodal rhetorical theory and multisensory neural processing theory pertaining to cognition and learning using existing theories from multimodal rhetoric and specific findings from neurobiological studies the author develops a model that integrates concepts from both fields bridging if not uniting them he also discusses possible applications of the new model with specific case studies related to training and instruction these applications include various media used in instructional and training contexts such as print slide shows videos simulations and hands on training the book thus introduces concepts of cognitive neuroscience to multimodal rhetorical theory and facilitates theorization combining multimodal rhetoric and

multisensory cognition and serves as a vehicle by which readers can better understand the links between multimodal rhetoric and cognitive neuroscience associated with technical communication integrating case studies from industry and practice the text makes explicit connections between academic scholarship and workplace preparation it also describes how interdisciplinary research can contribute to pharmaceutical research as well as the development of productive instructional materials rhetoric is affected by how the brain of any member of a given audience can process information this book can promote further research qualitative and quantitative to develop a better understanding of the relationship between multimodal messages and how the brain processes such information

the new walford highlights the best resources to use when undertaking a search for accurate and relevant information saving you precious time and effort for those looking for a selective and evaluative reference resource that really delivers on its promise look no further in addition to print sources the new walford naturally covers an extensive range of e reference sources such as digital databanks digital reference services electronic journal collections meta search engines networked information services open archives resource discovery services and websites of premier organizations in both the public and private sectors but rather than supplying a list of all available known resources as a web search engine might the new walford subject specialists have carefully selected and evaluated available resources to provide a definitive list of the most appropriate and useful with an emphasis on quality and sustainability the subject specialists have been careful to assess the differing ways that information is framed and communicated in different subject areas as a result the resource evaluations in each subject area are prefaced by an introductory overview of the structure of the relevant literature this ensures that the new walford is clear easy to use and intuitive publisher
