Lesson planning is the essential component of every teacher's practice and the development of a teacher's skill is built explicitly on a rigorous approach to planning. This goes beyond just written plans and includes a process of mental preparation, anticipation, rehearsal, and performance. All essential elements of the craft of teaching. This book offers heaps of useful advice and key ideas related to planning an effective lesson with clear links between the preparation of writing a lesson plan and the delivery of that lesson plan through your teaching. This book explores common components of lesson planning including learning objectives, learning outcomes, starters, teaching activities, and plenaries. The lesson plan document: what it can and can't do, teaching style, and your role in bringing lesson plans to life within your classroom. Common pitfalls including time management, over and under running, optimum learning time, and activity sequencing. Broader strategies such as differentiation, personalisation, and assessment. Sample lesson planning documents from real teachers, whatever age of pupils you are teaching or whatever subject you are teaching. This book helps you develop a clear and concise approach to lesson planning that is an essential and integral part of becoming an effective teacher. This is essential reading for all teachers, teacher educators, and policy makers. For new entrants to the profession, it offers the opportunity to think beyond the notion of folk

pedagogies and to consider how a more powerful theoretical framework might underpin lesson planning it presents essential analysis as to why common approaches to teaching and learning have emerged and become embedded this provides a great opportunity for more experienced teachers to develop a deeper critical understanding of their practice kate laurence institute of education university of london uk at last a plain speaking book on effective lesson planning lesson planning for effective learning by martin fautley and jonathan savage combines theoretical perspectives with really useful instantly useable examples from everyday practice andrew r mackereth headteacher heart of england school in their latest book martin fautley and jonathan savage start with practice and in deconstructing what teachers do every day apply their deep thinking and reasoned consideration this book articulates something of what it is to be professional for teachers of all types i heartily recommend this book simon spencer birmingham city university uk this book gives fantastic insight and practical strategies for teachers at all points within their career in order to encourage and embed reflective practice a must have resource for any school teaching and learning group library hayley mcdonagh senior leader golden hillock school birmingham former la senior adviser working with schools in ofsted category

this practical guide will help you to plan evidence informed innovative lessons that can be adapted to meet your individual student s needs modelled on a typical lesson plan the book covers all aspects of planning such as learning aims starting a lesson resources and activities embedding skills and assessment each chapter features a wide range of activities and strategies that can be used every day and easily adapted for different learners the chapters also explore what to do when lessons don t go to plan and how to use technology effectively to support learning throughout there are nuggets of useful theory to help you reflect not only on what works in the classroom but why written by an expert author team and linked to the early career framework this is essential reading for all trainee and early career teachers across a wide range of educational settings

developed by two educators with experience in both elementary and secondary classrooms writing effective lesson plans details a unique a step by step procedure designed to streamline the process of lesson planning and make teaching smoother and more efficient coined the five star lesson plan by the authors this model consists of five classic components lesson description goals and objectives materials and tools procedures and reflective assessment and evaluation this workbook guides beginning and experienced teachers through each step to create lesson plans that best meet the needs of every student it also explores the inherent challenges to effective lesson planning such as time efficiency knowledge construction skill development involving the students families and implementing your plan with its mix of concise theory and hands on activities this book is a one stop resource encouraging a deep and thoughtful approach to a skill that is often not sufficiently developed in teacher preparation programs
