we cannot afford to ignore martin luther that influential and highly controversial personality in european history not only were his activities mainly responsible for starting the reformation of the sixteenth century but his ideas also have greatly influenced political cultural and social thought ever since some modern writers have tried to trace the roots of nazism and german militarism back to luther others claim on the contrary that luther s ideas form the only real cure for these evils and that the authority which luther still possesses among many germans and other europeans should be used for the regeneration of europe lutheranism is very international the scandinavian countries are practically completely lutheran so were some of the baltic states lutheran groups are found in most countries of europe in the united states the lutherans many of them english speaking form one of the strongest religious groups and there are lutherans in many parts of the british empire luther s chief importance lies in the field of theology his

influence on political cultural and social questions is only an outcome of his religious thought but even in this field of theology luther s ideas are puzzling to many catholics of various types may consider him to be the arch protestant strict protestants including many british nonconformists consider him to be half roman in outlook his conservatism in church order and liturgical forms may endear him to some anglicans while he annoys others by his insistence that neither prayer books nor ecclesiastical formularies can create church unity but that unity of doctrine is the indispensable condition for union this attitude has more than once created problems for the ecumenical movement and made protestant cooperation difficult dr kramm in this volume has tried to interpret luther to the british reader minister and layman alike in an unbiased scholarly way at the same time stressing luther s importance for contemporary thought he has laid special emphasis on those questions which the british reader is apt to ask e g what was luther s attitude to morals and good works does salvation by faith alone mean that it is enough to hold a certain intellectual belief no christian life being required what does he teach about peace and war about church and state about political responsibility what are his ideas about church and ministry about sacraments about episcopacy and apostolic succession does luther treat the bible arbitrarily was he an anti semite did he spread blind nationalism or racial hatred what was his attitude to human reason scholarship and free will and so on

works of martin luther is a classic collection of the writings of the religious leader no historical study of current issues politics or social science or theology can far proceed without bringing the student face to face with the principles asserted by the reformation of the sixteenth century and its great leader martin luther martin luther was the author of substantial body of written works at the service of the reformation all his life luther published theological writings his commitment also induced him to write political and polemical texts according to yves congar a dominican luther was one the greatest religious geniuses in history who redesigned christianity entirely

no historical study of current issues politics or social science or theology can far proceed without bringing the student face to face with the principles asserted by the reformation of the sixteenth century and its great leader martin luther he has had many critics and many champions but neither his critics nor his champions feel that the last word concerning him has been spoken for scarcely a year passes that does not witness the publication of a new biography had luther been nothing more than a man of his own time and his own nation the task of estimating him would long since have been completed a few exhaustive treatises would have answered all demands but the catalogue of the british museum published in 1894 contains over two hundred folio pages averaging about thirty five titles to the page of books and pamphlets written either by or about him that have been gathered into this single collection in a land foreign to the sphere of his labors and this list has been greatly augmented since 1894 above all other historical characters that have appeared since the first years of christianity he is a man of the present day no less than of the day in which he lived but luther can be properly known and estimated only when he is allowed to speak for himself he should be seen not through the eyes of others but through our own in order to judge the man we must know all sides of the man and read the heaviest as well as the lightest of his works the more scientific and theological as well as the more practical and popular his informal letters as well as his formal treatises we must take account of the time of each writing and the circumstances under which it was composed of the adversaries against whom he was

contending and of the progress which he made in his opinions as time went on the great fund of primary sources which the historical methods of the last generation have made available should also be laid under contribution to shed light upon his statements and his attitude toward the various questions involved in his life struggles as long as a writer can be read only in the language or languages in which he wrote this necessary closer contact with his personality can be enjoyed only by a very limited circle of advanced scholars but many of these will be grateful for a translation into their vernacular for more rapid reading from which they may turn to the standard text when a question of more minute criticism is at stake even advanced students appreciate accurately rendered and scholarly annotated translations by which the range of the leaders of human thought with whom it is possible for them to be occupied may be greatly enlarged such series of translations as those comprised in the well edited ante nicene nicene and post nicene libraries of the fathers have served a most excellent purpose
