an intercultural ministry expert demonstrates the necessity of cultural intelligence for effectively serving an increasingly diverse church and world

in his earlier work romantic idealism and roman catholicism schelling and the theologians thomas f o meara o p traced the course of theology and philosophy developed by german catholics from the enlightenment to romantic idealism in the first half of the nineteenth century now o meara presents an overview of the second half of the nineteenth century in church and culture this new book focuses on german catholic systematic and fundamental theology from the 1860s to the onset of world war i the volume begins with an introduction to the cultural and philosophical patterns of the period o meara then sketches the two competing catholic theologies in germany the modest continuance of a historical and idealist thought and the expansion of neoscholasticism favored by the vatican the book examines in detail five significant theologians who developed dogmatic and fundamental theology in light of the movements of the time m j scheeben alois schmid paul schanz herman schell and carl

braig church and culture concludes by tracing the historical shift from theology to social action after 1890 demonstrating that the theologians who argued for an alternative to neoscholasticism and for theologies created out of the modernity of their own century were not modernists in the eyes of their german colleagues or according to the roman decrees o meara s book is one of the few sources for understanding late nineteenth century theology a philosophical theology that wanted to address and learn from the modern world but it was challenged by a vatican prone to see modernity becoming modernism and by a prussian establishment suspicious of the catholic faith and church

how did the christian church originate what journeys has it taken over two millennia and how did it come to exist in its present myriad forms the answers to these questions form a tapestry of history that reaches from first century palestine to the ends of the earth this volume tells this rich story from an ecumenical perspective drawing on both eastern and western historic sources in exploring the rise of eastern orthodoxy the church across asia africa and the americas and the reformations of the western church including the diversity of contemporary voices the work benefits from many pedagogical features boxed text sections identifying central figures and points of debate study questions for each chapter chapter summaries maps charts index supplemented by over 400 illustrations this book embraces the universality of historic and current christianity creating a single and comprehensive volume for students of church history and systematic theology

extra volumes issued for special conventions 1821
