Jack Ma is more than a businessman; he is a symbol of possibility, resilience, and reinvention. His life spans a 25-year arc of ambition, building Alibaba from a cramped apartment into a global powerhouse, conquering Wall Street with the largest IPO in history, challenging regulatory norms during a bold financial speech, facing political consequences that pushed him out of public life, returning quietly wiser and more measured as China's tech world transformed through detailed storytelling, real events, and deep analysis. This book uncovers how Jack's philosophy, failures, leadership style, and adaptability shaped not only his company but the trajectory of global entrepreneurship. A powerful narrative of rise, fall, and return, this book reveals the human being behind the myth and the timeless lessons his journey leaves for the world.

Ever since the Alibaba Group went public on September 19, 2014, with an initial public offering of a record-breaking 25 billion, Jack Ma, the founder and charismatic spiritual leader of the e-commerce behemoth, has been making headlines around the world. In 2014, the company's online transactions totaled 248 billion, more than those of Amazon and eBay combined. The first Chinese entrepreneur to appear on the cover of *Forbes*, Ma is now the second richest man in China, with a net worth estimated to be north of 29 billion. Despite Ma's massive influence in China and in the global tech world, his inspirational rags-to-riches story is relatively unknown to the general American public. Never Give Up: Jack Ma in His Own Words is a comprehensive guide to the inner workings of arguably the most prominent figure in the global tech world in the past 20 years, comprised entirely of Ma's own thought-provoking and candid quotes. When Ma decided to start his first internet company in 1999, few Chinese people knew what the internet was. Ma, a former English teacher, knew nothing about coding, and his 20,000 in startup funds were not made up of investments from venture capitalists but loans from his family. He channeled his startup experience into Alibaba, a group of websites that allows businesses and people to connect in order to buy and sell products similar to eBay and Amazon, while also collecting advertising revenue similar to Google. By some measures, Alibaba is now the largest e-commerce site in the world. In this book, more than 200 quotes on business, values, innovation, entrepreneurship, competition, management, teamwork, life, and more provide an intimate and direct look into the mind of this modern business icon and philanthropist. Many of these quotes are translated directly from the Chinese press and interviews for readers who do not read Chinese and have no other access to these materials. This book provides invaluable insight into the mind of one of the world's most successful business magnates.
