thoroughly revised the second edition of a guide to field research is designed to assist undergraduate students and other beginning field researchers in carrying out their first qualitative studies its rich examples from classic ethnographies as well as examples generated by the author herself help bring alive the abstract principles of field research

praise for the fourth edition i think this volume is a good textbook and if i were teaching a research methods subject i would consider using it as a core text the extensive study aids are a particularly attractive aspect of the book as a teaching pool qualitative research journal the continually updated and expanded investigating the social world now in its fifth edition is written so that the doing of social research is closely and consistently linked to important social issues demonstrating not only the value of research but also how technique and substance are intimately related the text offers guides for critiquing research articles exercises for applying research skills and the examples of analyzing and reporting social data provide instructors with key supports for effective teaching ethical concerns and ethical decision making are treated in tandem with each study of specific methods and an emphasis on how to do research is joined with an equal emphasis on giving students the critical skills necessary to evaluate research done by others

provides an introduction to social research this book presents research methods as an integrated whole with balanced treatment of qualitative and quantitative methods

integration of substantive examples and research techniques and consistent attention to the goal of validity and the standards of ethical practice

social statistics for a diverse society provides students with a revealing introduction to social science statistics this fourth edition maintains the same informal conversational writing style along with the many pedagogical features that made previous editions so successful it is an excellent textbook for students taking their first course in social statistics and can also be used in a number of sociological research methods courses book jacket

the sixth edition of this student friendly textbook provides both a thorough explanation of the issues as well as current research and controversies exploring health care socioeconomic trends and the life course this thoroughly revised new edition contains nine new readings over 35 new photographs and an instructor resource cd
