addressing the threat that some christians have felt from the theory of evolution lou savary answers questions raised by people of faith about evolution and how it relates to christian faith and practice

this edited book provides a global view on evolution education it describes the state of evolution education in different countries that are representative of geographical regions around the globe such as eastern europe western europe north africa south africa north america south america middle east far east south east asia australia and new zealand studies in evolution education literature can be divided into three main categories a understanding the interrelationships among cognitive affective epistemological and religious factors that are related to peoples views about evolution b designing implementing evaluating evolution education curriculum that reflects contemporary evolution understanding and c reducing antievolutionary attitudes this volume systematically summarizes the evolution education literature across these three categories for each country or geographical region the individual chapters thus include common elements that facilitate a cross cultural meta analysis written for a primarily academic audience this book provides a much needed common background for future evolution education research across the globe

this book gathers the expertise of 30 evolutionary biologists from around the globe to highlight how applying the field of quantitative genetics the analysis of the genetic basis of complex traits aids in the study of wild populations

you ll find answers to more than 500 commonly asked questions about dinosaurs their behavior and theories concerning their demise

the study of alternative reproductive tactics the behavioural strategies used by individuals to increase their reproductive success is an evolutionary puzzle and one

of great interest to researchers for instance why do some males guard both nest and eggs while others sneak into nests while pairs are spawning and fertilise those eggs the field offers a special opportunity to study the evolution and functional causes of phenotypic variation which is a general problem in the field of evolutionary biology by integrating both mechanistic psychological and evolutionary behavioural ecology perspectives and by covering a great diversity of species alternative reproductive tactics addresses this integrated topic of longstanding interest bringing together a multitude of otherwise scattered information in an accessible form that is ideal for graduate students and researchers

douglas futuyma presents an overview of current thinking on theories of evolution aimed at an undergraduate audience

homeschooling is revolutionizing the way many children in this country are educated increasing numbers of parents are finding that homeschools provide their children with a learning environment superior to that of public schools whether you are currently homeschooling or are just considering it you ve probably had questions such as can i afford it how do i set up a plan of study and most important is homeschooling right for my child here at last are honest practical answers to all of your questions and more drawing from the collective wisdom and experience of the 39 most respected mentors in the field the homeschooling book of answers is your essential guide to one of the biggest trends in education learn how homeschooling may be your family s best method for providing your child with the finest education your child deserves it i can t imagine a more helpful book on homeschooling a happy marriage of the realistic with the idealistic the passionate with the practical until our schools are not just reformed but truly transformed every parent should consider this alternative george leonard author of education and ecstasy and mastery if you plan to homeschool make sure you read this book your child s education depends on it senator vince illuzzi the homeschooling book of answers is filled with common sense for homeschoolers or any other parents who care deeply

about their children's education this book is a must read for people who care about how and what their children learn at home or in one of the expensive institutional juggernauts that have a difficult time keeping up with them craig lancto educator and newspaper columnist delightfully easy to read this most timely valuable informative and critically needed work covers the home school issue with an encyclopedic thoroughness i can only applaud and pass the word joseph chilton pearce author of the crack in the cosmic egg and magical child contributors include john taylor gatto author of dumbing us down david and micki colfax authors of homeschooling for excellence raymond and dorothy moore authors of school can wait mark and helen hegener publishers of home education magazine susannah sheffer editor of growing without schooling

this collection of twenty two research papers explores the creative interaction between evolutionary and molecular biology philosophy and theology it is the result of the third of five international research conferences co sponsored by the vatican observatory rome and the center for theology and the natural sciences berkeley the over arching goal of these conferences is to support the engagement of constructive theology with the natural sciences and to investigate the philosophical and theological elements in ongoing theoretical research in the natural sciences contents an extensive introduction robert john russell two recent statements on evolution and christian faith by pope john paul ii and an interpretive essay by the director of the observatory george v coyne s j section one scientific background evolutionary and molecular biology francisco j ayala and camilo j cela conde and the possibility of the evolution of extraterrestrial life julian chela flores section two evolution and divine action philosophical analyses of teleology in light of biology from the perspectives of a scientist francisco j ayala and a theologian wesley j wildman assessments of the evidence for teleology by scientists paul davies and william r stroeger s j and theological arguments on divine action and evolution focusing on special providence robert john russell and on process theism charles birch section three religious interpretations of biological themes critique of evolution
