unearthing culturally responsive mathematics teaching the legacy of gloria jean merriex focuses on the theory and practices of a highly successful mathematics teacher of african american children in a high poverty school the book aims to contribute to the limited literature base in this area in mathematics education the discussions in the book center on the ideals of culturally responsive teaching crt and seek to build understanding of this concept in the context of mathematics further the story of gloria jean merriex speaks to the importance of historical influences on teaching practice her story is couched in sociopolitical realities of the american educational system and is discussed as such cultural incongruities that exist in classrooms and contribute to the black white achievement gap particularly

in mathematics are also discussed

over the past three decades studies investigating heritage speaker's linguistic competencies have shown time and again that despite being L1 or 2L1 native speakers of their home language, their outcomes display variation across a wide spectrum of differences as compared to each other, other types of bilinguals as well as their monolingual peers. Studies have traditionally used mostly behavioral methodologies rooted in adjacent established fields, e.g., L1 acquisition, adult L2 acquisition, offering in addition to documenting and describing their performance important insights for linguistic theory and challenges related to home minority language maintenance, contact, policy, and more. A bird's eye view makes it clear that the methodologies one uses to tap into their linguistic knowledge areas, if not more, are important than the phenomena under investigation, especially in light of how their unique experiences with their heritage and other languages are present across a continuum.

This book is designed to help students get Florida Standards Assessments (FSA) 2017-18 rehearsal along with standards-aligned rigorous skills practice. It includes access to online resources, 2 practice tests that mirror the Florida Standards Assessments (FSA) 10 Tech-enhanced item types, self-paced learning, and personalized score reports. Strategies for building speed and accuracy, instant feedback after completion of the assessments, standards-based printed workbooks, operations and algebraic thinking, number operations in base ten, number operations, fractions, measurement and data, geometry. Students will have the opportunity to practice questions related to all the critical math learning objectives included in the Florida Standards. Teachers get free access to Lumos StepUp™ Basic Account, create up to 30 students' accounts, and monitor their online work. Share information about class work and school activities through stickies, easy access to blogs, standards student reports, and more. 7,000 schools, 11,000 teachers, and 120,000 students use the Lumos Learning Study Programs to improve student achievement on the standardized tests and supplement classroom learning.
