this work argues that greening the eu entails more than adding environmental policies to existing legislation the author uses a modified garbage can approach to analyze micropolitics ie the way environmental problems have been defined and solutions articulated and adopted

as a nominally neutral power during the second world war sweden in the early postwar era has received comparatively little attention from historians nonetheless as this definitive study shows the war and particularly the specter of nazism changed swedish society profoundly prior to 1939 many swedes shared an unmistakable affinity for german culture and even after the outbreak of hostilities there remained prominent apologists for the third reich after the allied victory however swedish intellectuals reframed nazism as a discredited distinctively german phenomenon rooted in militarism and romanticism accordingly swedes self conception underwent a dramatic reformulation from this interplay of suppressed traditions and bright dreams for the future postwar sweden emerged

both eco authoritarian and democratic scholars have claimed that a liberal democracy cannot pay due attention to the environment however such claims call for profound

analysis jagers argues that much in the debate on liberal democracy and environmental concern can be more stringently elaborated for instance there has been a tendency to compound philosophical and institutional objections against liberal democracy often it is unclear what the critical voices actually mean when they speak of liberal democracy in addition the compatibility between specific forms of liberal democracy and sustainable development has not been thoroughly investigated most studies have been limited to comparing liberal and ecological values or ecological values and liberal institutions to avoid many of these shortcomings this study analyzes the compatibility between sustainable development policies and liberal democracy by combining political theory and resource scenarios based on environmental science
