imparts a true sense of the magical light that has shaped great buildings in denmark finland norway and sweden

designers from denmark sweden finland norway and iceland have long pursued the shared goal of social equality through design believing that well designed everyday goods not only enhance daily life but should also be the birthright of all modern scandinavian design is the ultimate guide to the distinctive design tradition arising out of

these five nordic countries since 1925 bestselling design authors charlotte and peter fiell have extensively researched all aspects of the aesthetic along with contributions from magnus englund of skandium with sections on architecture furniture lighting glass ceramics metalwork woodenware plastics textiles jewelry and graphic design this will be an indispensable resource for any design enthusiast collector or casual reader seeking inspiration for their home

from ikea home furnishings to eero saarin s twa terminal at jfk airport in new york the natural and simple lines attention to detail and concern for the environment that characterize the scandinavian look have left their mark on both our popular culture and our structural design this full color introduction to one of europe s most influential styles includes silver jewelry from georg jensen to the best young silversmiths the egg chair and the swan sofa the finest glassware and ceramics vintage volvos state of the art saabs and the cutting edge of graphic design the innovative and practical ideas are inspiring examples of form that perfectly follows function

modernism was instrumental in the development of twentieth and twenty first century scandinavian architecture for it captured a progressive urbane character that was inextricably associated with and embraced the social programmes of the nordic welfare states recognized internationally for its sensitivity and responsiveness to place and locale and its thoughtful use of materials and refined detailing nordic architecture continues to evolve and explore its modernist roots this new book covers the romantic and classical architectural foundations of nordic modernism the development of nordic functionalism the maturing and expansion of nordic modern architecture in the post war period international influences on scandinavian modernism at the end of the twentieth century and finally the global and local currents found in contemporary nordic architecture superbly illustrated with 100 colour images

the most complete survey of nordic architecture available today

this book seeks to provide an alternative post western perspective to the history of contemporary architecture it puts forward detailed critical analyses of various areas of the world including europe latin america africa china australia india and japan where particular movements of architecture have developed as active political acts the authors focus on a broad spectrum of countries architectures and architects that have developed a design approach closely linked to the building context the concept of context is broad and includes various economic social cultural

political and natural aspects in all cases the architects selected in this book have chosen to view context as an opportunity however each architect has considered certain specific aspects of context some have been very attentive to the social context others to material aspects or typological issues and still others to aspects related to political visions or economic factors the analysis critically highlights interesting creative and respectful design approaches towards local conditions such as sustainability in nordic europe climate conscious design in africa and the bottom up sensitivity of india the book s main aim is to retrace through both theoretical arguments and case studies the debate that focuses on politics and the environment thanks to its valuable examples this book strives to make a conscious contribution to establishing a bulwark against the current flattening out processes that architecture is experiencing this book will be of relevance to researchers teachers and students interested in the history of architecture architecture and planning and postcolonial studies

modernism was instrumental in the development of twentieth and twenty first century scandinavian architecture for it captured a progressive urbane character that was inextricably associated with and embraced the social programmes of the nordic welfare states recognized internationally for its sensitivity and responsiveness to place and locale and its thoughtful use of materials and refined detailing nordic architecture continues to evolve and explore its modernist roots this work covers the romantic and classical architectural foundations of nordic modernism the development of nordic functionalism the maturing and expansion of nordic modern architecture in the post war period international influences on scandinavian modernism at the end of the twentieth century and finally the global and local currents found in contemporary nordic architecture

organic design in twentieth century nordic architecture presents a communicable and useful definition of organic architecture that reaches beyond constraints the book focuses on the works and writings of architects in nordic countries such as sigurd lewerentz jørn utzon sverre fehn and the aaltos aino elissa and alvar among others it is structured around the ideas of organic design principles that influenced them and allowed their work to evolve from one building to another erik champion argues organic architecture can be viewed as a concerted attempt to thematically unify the built environment through the allegorical expression of ongoing interaction between designer architectural brief and building as process with over 140 black and white images this book is an intriguing read for architecture students and professionals alike

scandinavia is a region associated with modernity modern design modern living and a modern welfare state this new

history of modernism in scandinavia offers a picture of the complex reality that lies behind the label a modernism made up of many different figures impulses and visions it places the individuals who have achieved international fame such as edvard munch and alvar aalto in a wider context and through a series of case studies provides a rich analysis of the art architecture and design history of the nordic region and of modernism as a concept and mode of practice modernism in scandinavia addresses the decades between 1890 and 1970 and presents an intertwined history of modernism across the region charlotte ashby gives a rationale for her focus on those countries which share an interrelated history and colonial past but also stresses influences from outside the region such as the english arts and crafts movement and the impact of emergent american modernism her richly illustrated account guides the reader through key historical periods and cultural movements with case studies illuminating key art works buildings designed products and exhibitions
