in this first serious work on the theory of civil society to appear in many years jean cohen and andrew arato contend that the concept of civil society articulates a contested terrain in the west that could become the primary locus for the expansion of democracy and rights in this major contribution to contemporary political theory jean cohen and andrew arato argue that the concept of civil society articulates a contested terrain in the west that could become a primary locus for the expansion of democracy and rights

the resurgence of interest in rhetoric among political theorists is one of the most remarkable developments in the field over the past few decades assembling a multidisciplinary group of prominent scholars the oxford handbook of rhetoric and political theory is the most ambitious effort to date to display the range and vitality of work that constitutes the rhetorical turn in political theory including thirty six chapters across five sections the handbook explores issues that reside at the heart of many of the most pivotal debates and discussions in political theory today questions about the role of affect and emotion in political life the work of persuasion in political discourse the relationship between logic and style in political argument the character and scope of public deliberation the performative and constitutive dimensions of language the play of contingency in political life and the rhetorical structure of political texts the volume s authors assess the changing status of rhetoric in political theory and philosophy exploring disputes that arose in ancient athens and have continued to the present day as well as urgent issues that have only recently emerged moreover the handbook investigates different understandings of rhetoric that have animated recent scholarship and examines key issues and approaches that have fueled the burgeoning interest in rhetoric and political thought the oxford handbook of rhetoric and political theory demonstrates that an adequate understanding of political affairs cannot be attained without taking account the impact of rhetoric on political thought and conduct

looking at the roots of contemporary political theory this three volume set examines the global landscape of all the key theories and the theorists behind them and provides concise to the point definitions of key concepts ideas schools and figures

g a cohen was one of the towering political philosophers of the late twentieth and early twenty first centuries his intellectual career was unusually wide ranging and he was celebrated internationally not only for his penetrating ideas about liberty justice and equality but for his method a highly original and influential combination of analytical philosophy and marxism christine synowich guides readers through the rich body of cohen s work by identifying five paradoxes in his thought she explores the origins of his interest in analytical philosophy his engagement with the ideas of right wing libertarianism his critique of john rawls s work his late career turn to conservatism and the tension between his preoccupation with individual responsibility and the idea of a socialist ethos synowich acknowledges the strengths of cohen s positions as well as their tensions and flaws and presents him as a

thinker of startling insight this compelling introduction is a go to resource for students and scholars of modern political philosophy

this uniquely accessible introduction to political philosophy explores a history of civilization from plato to mao

over the past 20 years joshua cohen has explored the most controversial issues facing the american public this volume draws on his work to develop an argument about what he calls democracy's public reason

g a cohen was one of the most gifted influential and progressive voices in contemporary political philosophy at the time of his death in 2009 he had plans to bring together a number of his most significant papers this is the first of three volumes to realize those plans drawing on three decades of work it contains previously uncollected articles that have shaped many of the central debates in political philosophy as well as papers published here for the first time in these pieces cohen asks what egalitarians have most reason to equalize he considers the relationship between freedom and property and he reflects upon ideal theory and political practice included here are classic essays such as equality of what and capitalism freedom and the proletariat along with more recent contributions such as fairness and legitimacy in justice freedom and money and the previously unpublished how to do political philosophy on ample display throughout are the clarity rigor conviction and wit for which cohen was renowned together these essays demonstrate how his work provides a powerful account of liberty and equality to the left of ronald dworkin john rawls amartya sen and isaiah berlin

includes university catalogues president's report financial report registers announcement material etc

a study of the political theory that underlies the conservative economic thought of such economists as milton friedman james buchanan and friedrich hayek and its implications for public policy the author analyzes the political content of ideas that justify a laissez faire policy

written mainly as a text book but also for the general reader this book aims to provide an introduction to the subject of political philosophy all important past political philosophers make their appearance in the text including plato aristotle hobbes locke rousseau hegel marx and john stuart mill contemporary philosophers such as rawls dworkin and nozick are also included the book introduces 12 central political concepts power the state sovereignty law authority justice equality rights property freedom democracy and the public interest each of these topics are analyzed theories about them explained and problems discussed

how can political theory help us understand and solve the political questions of our time this introduction to political theory illuminates its relevance and applicability and clarifies what is at stake in debates over welfare terrorism and civil liberties minority rights abortion and euthanasia freedom of speech and a range of other issues

political thought since 1945 provides for a new generation of readers clear and accurate accounts of the views of seven major thinkers arendt dahl habermas hayek macpherson oakshott and rawls each one is placed in a context of comment and criticism in addition an introductory chapter sets out the ideas of other thinkers so that the ambient controversy and conversation is made plain politics as philosophy as social science and as ideology are all considered the search for a valid form of enquiry is shown to be a continuing preoccupation through the period there was frequent evidence of delayed recognition and influence of political writers and so this reliable guide will provide illumination for years to come lucid and reliable this guide to recent political thought will be indispensable for the generations of students

seminar paper from the year 2021 in the subject philosophy philosophy of the 19th century grade 10 university of frankfurt main language english abstract rawls s claim that the primary subject of justice should be the basic structure of a society i shall call this his basic structure claim has been a central point of discussion for a variety of debates within political theory not only has it been attacked from both libertarians and socialists alike but it has also played a crucial role in feminist critiques of rawls above all its importance can hardly be overstated with regard to questions about transnational justice the cosmopolitanism vs statism debate can to a large part be traced back to different conceptions of the basic structure respectively resulting in different views about the scope of principles of justice in contrast to the pivotal significance of this claim however rawls seems to assume rather than really justify it which is part of why many have found it dubious at least if not straightforward wrong after shortly outlining the core aspects of that discussion in section 2 my aim in this paper will therefore be to develop a more profound account of the basic structure based on a particular interpretation of kant s doctrine of right in doing so i seek to answer two questions the first is in which sense are institutions different subjects of justice after all this question will be addressed in section 3 and 4 the second is how do normative principles apply differently to institutions than they do to individual conduct this will be the topic of section 5 and 6
