Gone are the days of simple, solid and softpoint bullets for a mere dozen and a half African calibers. The sheer number of products on the market today staggers the mind and bewilders even experienced hunters. Boddington presents his information in clearly explained, bite-size pieces that we can digest, and in the process, he gives us a solid understanding of what works and what doesn't. Many writers proclaim their knowledge of African hunting, but few have the true, in-depth experience that comes from thousands of days afield. Boddington's *Safari Rifles II* is a rare gem of a book offering solid information based on vast experience and insight gathered over the last thirty years of hunting on the dark continent.
