this collection engages environmental ethical and cultural values perspectives to show how design and technology d t education actively contributes to the significant educational goal of attaining sustainable global futures an international collection of authors representing all levels of education articulate how d t research curriculum theory policy and classroom practices can synergise to contribute positively to the education of children for sustainable global futures the book offers a spectrum of theorised curriculum positions political and policy analysis and case studies of successful school practice a key word in the title is that of contribution which is construed in several senses first of d t as a vehicle for understanding the range of political and social values that arise with such a major educational challenge second of d t as an agent of critical and practical action for students as global citizens third by taking global and multiple perspectives rather than say western or mono cultural positions and fourth by demonstrating d t s capacities for working in holistic and integrative cross

curricular ways the authors show how students can not only learn about their potential as humans as designers but can also develop designerly capacities that enable them to contribute meaningfully in practical ways to their communities and to wider society that is as global citizens who can apply design capability in ethical ways that are respectful of peoples cultures and environments alike

the intricate web of healthcare sustainability and legalities has never been more significant or complex bridging health environment and legalities a holistic approach embarks on an enlightening journey through these interwoven domains exploring their relationships and their pivotal role in shaping global well being not merely content with the surface this book navigates the complex terrain of health equity and access to care unveiling the role of social determinants of health and their legal implications it critically examines sustainable medical innovations scrutinizing the legal and regulatory challenges in adopting and implementing groundbreaking medical advancements intellectual property rights and ethical considerations in medical research are carefully dissected offering guidance on promoting sustainable medical breakthroughs through policy and law

with the enlargement of the european union the accession countries are coming under pressure to develop and meet eu standards for environmental protection and sustainable development in this ongoing process global economic liberalization regulatory policy conservation and lifestyle issues are all involved and creative solutions will have to be found historians geographers economists ecologists business management experts public policy specialists and community organizers have come together in this volume and examine for the first time environmental issues ranging from national and regional policy and macroeconomics to local studies in community regeneration the evidence suggests that far from being mere passive recipients of instruction and assistance from outside the people of central and east central europe have been engaged actively in working out solutions to these problems several promising cases illustrate opportunities to overcome crisis situations and offer examples of

good practices while others pose warnings the experiences of these countries in wrestling with issues of sustainability continue to be of importance to policy development within the eu and may serve also as examples for both developed and developing countries worldwide

from the parking lot to the exam room doctors can improve the physical surroundings for their patients yet often they do not given the numerous and varied duties doctors must perform it may fall to the design profession to implement changes many based on research to improve healthcare experiences from location and layout to furnishings and positive distractions this book provides evidence based information about the physical environment to help doctors and those who design medical workspaces improve the experience of health care along with its research base a special aspect of this book is the integration of relevant historical material about the office practice of physicians at the beginning of the twentieth century many of their design solutions are viable today in addition to improving the physical design of healthcare facilities author ann sloan devlin is the granddaughter daughter and niece of physicians as well as the granddaughter and daughter of nurses she worked in a hospital during college and has visited a good many practitioners offices in medical office buildings and ambulatory care settings this book addresses an overlooked location of care the doctor s office suite

for sas programmers or analysts who need to generalize their programs or improve programming efficiency art carpenter thoroughly updates his highly successful second edition of carpenter s complete guide to the sas macro language with an extensive collection of new macro language techniques and examples addressing the composition and operation of the sas macro facility and the sas macro language this third edition offers nearly 400 ready to use macros macro functions and macro tools that enable you to convert sas code to macros define macro variables and more users with a basic understanding of base sas who are new to the sas macro language will find more detail utilities and

references to additional learning opportunities advanced macro language programmers who need help with data driven macros and dynamic application development will find greatly expanded treatment of these topics this revised and enlarged edition includes the following topics new and expanded introduction to the macro language functions automatic macro variables and macro statements new to the macro language expanded macro language tools that interface with the operating system expanded data driven methodologies used to build dynamic applications expanded discussion of list processing with four alternative approaches presented additional file and data management examples expanded discussion of call execute and dosubl new discussion of using the macro language on remote servers expanded discussion and examples of macro quoting far beyond a reference manual issued from an ivory tower this book is pragmatic and example driven yes you will find syntax examples yes the code is explained but the focus of this book is on actual code used to solve real world business problems in fact an entire appendix is dedicated to listing the nearly 70 classes of problems that are solved by programs covered in this edition discussion of the examples elucidates the pros and cons of the particular solution and often suggests alternative approaches therefore this book provides you both a compendium of reusable and adaptable code and opportunities for deepening your understanding and growing as a sas programmer

personalized learning in the middle grades shows how teachers in grades 5 8 can leverage the use of personalized learning plans plps to increase student agency and engagement helping youth to establish learning goals aligned with their interests and assess their own learning particularly around essential skills that cut across disciplines drawing on their research and work with fifty schools in vermont where plps are used statewide the authors show how personalized learning aligns with effective middle grades practice and provide in depth examples of how educators have implemented plps in a wide range of schools representing different demographics and grade configurations they also highlight five critical roles for teachers in personalized learning environments as

empowerer scaffolder scout assessor and community builder and illustrate how teachers can adapt the plp process for their own unique contexts grounded in experience and full of engaging examples artifacts and tools the book builds on the emerging field of personalized learning and connects it with the developmental needs of middle schoolers to provide a unique and valuable resource for individual classroom teachers teacher teams school leaders teacher educators and others

chiefly papers presented at the 10th international colloquium on foreign language teaching hosted by the centre for applied language studies at the university of limerick on 11 12 june 2005
