

art politics and race

autographed photograph lincoln tribute switzerland carl gustav jung born july 26 1875 died june 6 1961 was a swiss psychologist and psychiatrist who founded analytical psychology jung proposed and developed the concepts of the extraverted and the introverted personality archetypes and the collective unconscious his work has been influential in psychiatry and in the study of religion literature and related fields jung also created some of the best known psychological concepts including the complex and synchronicity the myers briggs type indicator mbti a popular psychometric instruments has been developed from jung s theories jung saw the human psyche as by nature religious and made this religiousness the focus of his explorations jung is one of the best known contemporary contributors to dream analysis and symbolization though he was a practicing clinician and considered himself to be a scientist much of his life s work was spent exploring tangential areas including eastern and western philosophy alchemy astrology and sociology as well as literature and the arts his interest in philosophy and the occult led many to view him as a mystic

one of the greatest psychological thinkers of modern times jung s ideas about inner growth wholeness aging spirituality parenting and mystical experience have revolutionized the way we think the wisdom of carl jung celebrates his visionary pursuits in mythology alchemy comparative religion and the exploration of ancient systems of knowledge such as taoism the i ching yoga hindu meditation and kabbalah in this seminal addition to the wisdom series jung allows readers to contemplate his fascinating ideas for themselves

in this his most famous and influential work carl jung made a dramatic break from the psychoanalytic tradition established by his mentor sigmund freud rather than focusing on psychopathology and its symptoms the swiss psychiatrist studied dreams mythology and literature to define the universal patterns of the psyche

the archetypes of human experience which derive from man s deepest unconscious mind and reveal themselves in the universal symbols of art and religion as well as in the individual symbolic creations of particular people are for c g jung the key to the cure of souls the cornerstone of his therapeutic work the function and origin of symbols are explained in this volume the reader will find here not only a general orientation to jung s point of view in its most recent formulation but extensive studies of the symbolic process and its integrating function in human psychology as it is reflected in the characteristic spiritual products of europe and asia

describes the authentic religious function in the unconscious mind

an introduction to the theories and concepts of one of the most original and influential religious thinkers of the 20th century the book covers all of jung s most significant themes including man s need for a god and the mechanics of dream analysis

in the spring of 1957 when he was eighty one years old c g jung undertook the telling of his life story at regular intervals he had conversations with his colleague and friend aniela jaffe and collaborated with her in the preparation of the text based on these talks on occasion he was moved to write entire chapters of the book in his own hand and he continued to work on the final stages of the manuscript until shortly before his death on june 6 1961 this edition of memories dreams reflections includes jung s vii sermones ad mortuos it is a fully corrected edition

written three years before his death the undiscovered self combines acuity with concision in masterly fashion and is jung at his very best offering clear and crisp insights into some of his major theories such as the duality of human nature the unconscious human instinct and spirituality jung warns against the threats of totalitarianism and political and social propaganda to the free thinking individual as timely now as when it was first written jung's vision is a salutary reminder of why we should not become passive members of the herd with a new foreword by sonu shamdassani

this one volume edition allows the general reader to appreciate jung's ideas and personality as they reveal themselves in his comments to his colleagues and to those who approached him with genuine problems of their own as well as in his communication with personal friends the correspondence supplies a variety of insights into the genesis of jung's theories and a running commentary on their development originally published in 1984 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

discover a new side to carl jung in this beautiful collection of his writings speeches seminars and letters on nature and our connection to the natural world join jung as he rediscovers the original unity of nature and the spirits inside matter come to life once again these selections not just from his published writings but also from speeches obscure seminars interview and letters show a less familiar side of the famous swiss psychiatrist whose deep concern over the loss of our emotional and mythic relationship with nature is expressed in moving poetic terms included are excerpts from memories dreams reflections among jung's other works while never losing sight of the rational cultured mind jung speaks for the natural mind source of the evolutionary experience and accumulated wisdom of our species through his own example jung shows how healing our own living connection with nature contributes to the whole table of contents jung's own relationship with nature consciousness slipped from its natural foundation nature was once fully spirit and matter the primitive knows how to converse with the soul we have conquered nature is merely a slogan our civilizing potential has led us down the wrong path we know nothing of man nature must not win but cannot lose

carl gustav jung the great swiss psychologist who died in 1961 in his eighty sixth year was a profound thinker of extraordinary creativity in the course of his medical practice he reflected deeply on human nature and human problems and his prolific writings bear witness to his great wisdom and insight for this completely revised edition selections from publications of the years 1945 1961 the last fruitful years of jung's life have been added and the book has been reset in a new compact format the selections are arranged thematically under four main headings the nature and activity of the psyche man in his relation to others the world of values and on ultimate things jung's reflections frequently have a penetrating relevance to today's and tomorrow's problems on prejudice our unwillingness to see our own faults and the projection of them is the beginning of most quarrels and is the strongest guarantee that injustice animosity and persecution are not ready to die out on sex we are not yet far enough advanced to distinguish between moral and immoral behavior in the realm of free sexual activity on religion no one can know what the ultimate things are we must therefore take them as we experience them and if such experience helps to make life healthier more beautiful

more complete and more satisfactory to yourself and to those you love you may safely say this was the grace of god

this volume from the collected works of c g jung has become known as perhaps the best introduction to jung s work in these famous essays he presented the essential core of his system this is the first paperback publication of this key work in its revised and augmented second edition the earliest versions of the essays are included in an appendices containing as they do the first tentative formulations of jung s concept of archetypes and the collective unconscious as well as his germinating theory of types

a lavishly illustrated volume of c g jung s visual work from drawing to painting to sculpture a world renowned founding figure in analytical psychology and one of the twentieth century s most vibrant thinkers c g jung imbued as much inspiration passion and precision in what he made as in what he wrote though it spanned his entire lifetime and included painting drawing and sculpture jung s practice of visual art was a talent that jung himself consistently downplayed out of a stated desire never to claim the title artist but the long awaited and landmark publication in 2009 of c g jung s the red book revealed an astonishing visual facet of a man so influential in the realm of thought and words as it integrated stunning symbolic images with an exploration of thinking in images in therapeutic work and the development of the method of active imagination the remarkable depictions that burst forth from the pages of that calligraphic volume remained largely unrecognized and unexplored until publication the release of the red book generated enormous interest in jung s visual works and allowed scholars to engage with the legacy of jung s creativity the essays collected here present previously unpublished artistic work and address a remarkably broad spectrum of artistic accomplishment both independently and within the context of the red book itself widely represented tracing the evolution of jung s visual efforts from early childhood to adult life while illuminating the close relation of jung s lived experience to his scientific and creative endeavors the art of c g jung offers a diverse exhibition of jung s engagement with visual art as maker collector and analyst
