half of the size of an index card sight words are high frequency words that make up for more than 50 of words your child would encounter while beginning to read it s a great tool for reading as it enhances a child s speed fluency and reading comprehension sight words are an important tool for learning to read and because they are used so often it is important that your child is able to recognize these words on sight hence the term sight words without having to use any strategy to decode there are many words like the that cannot be easily illustrated sight words are as important to learn reading as math facts are to learn elementary math when kids master sight words their memory automatically brings the sound and meaning of the word into their consciousness the action is so unconscious that they don t even realize it is happening mastering sight words develops automaticity while reading automaticity is the ability to do things without occupying the mind with the low level details that are required this is usually the result of consistent learning repetition and practice for instance an experienced cyclist does not have to concentrate on turning the pedals balancing and holding on to the handlebars instead those processes are automatic and the cyclist can concentrate on watching the road the traffic and other surroundings sight words also build confidence in a child the frequency of occurrence of these words are so high that a child who has mastered these words can already recognize at least half of a sentence and start to feel good and confident about reading sight words also help promote reading comprehension when your child opens their book for the first time instead of trying to decipher what all of the words mean they can shift their attention to focus on those words they are not familiar with they will already know at least half of the words so focusing on the other half helps strengthen their understanding of the text reproducible activity pages and word list for kids involving top 100 common words for your preschool pre k kindergarten first grade children to help the kid learn writing reading and to recognize words without the help of parents using worksheet flash cards and other activities in this book

this unique reading programme has been developed after many years of working as an occupational therapist with children with dyslexia attention deficit adhd and other reading and learning difficulties it has been designed specifically for easy use by parents grandparents and au pairs providing a progressive series of games which are fun to play and which take your child developmentally through the stages of learning to read it can also be used by teachers and remedial teachers as a supplement to their usual lessons because it follows the correct developmental stages of reading a major difference between this programme and many other programmes for reading is the emphasis on movement rhythm and rhyme parents are often surprised that i encourage movement when teaching reading foundations they are also usually pleased that at last they can stop the fight of trying to keep their child sitting still and focussing quietly while trying to practise his reading movement is fundamental to this programme and rhythm and rhyme are intrinsically linked to movement the section on vestibular processing explains why i have found this to be so necessary and yet overlooked when teaching reading in the introduction i give the reader a brief overview of the underlying principles that have informed my approach i also help the reader identify the developmental foundations that children need in order to begin to learn to read and understand how each developmental step prepares the way for the next this is not an in depth academic diatribe on neuro development it is an overview designed to inform and empower the reader to be able to get the best out of the programme indeed i have found that when i empower parents this way they usually go away to return with even better more creative ideas and their children progress so much faster reading does not begin with the recognition of written letters and how they combine to make words children need to learn to become aware of sounds within words and to be able to separate sounds from each other they need to be able to play with sounds they also need to recognise shapes of letters and remember the sounds they represent there is such a lot of learning that needs to be achieved before we can really begin a formal reading lesson the games in this book start at the early developmental stage of learning to listen actively to the different constituent sounds in words and to play with the sounds of words these early games can be played in the park or garden since no books are needed young children who are not yet ready to learn to recognise written words can play

these games and develop a strong base on which to build writing and spelling the games then continue to follow the development of the foundation skills needed for reading until the last section of games where actual reading is introduced when the children reach the section of reading text it is presented in rhymes that they have already learnt this not only builds their confidence but also helps them to read with natural flow and tone the ability to recognise words in different fonts is also introduced at this stage each game is presented in easy to follow steps like following a recipe the main aim of the game is briefly described followed by any equipment you might need and where you should play the game equipment is kept minimal and simple and most games are designed to be played in and around the home or garden this makes it easy for parents and children to decide at any time to play a game without much planning ahead an illustration for each game makes it easier to find when paging through quickly and stimulates your child s imagination and interest at the end of the book a series of worksheets is presented these are mostly lists of letters phonic blends and words presented in large bold font and with some grading to develop your child s ability to recognise letters and words in different fonts t
