characterised by ratzinger s concisely reasoned style it helps those who wish to
understand the modern church and the thinking of pope benedict xvi

a vivid blow by blow of the controversies that have wracked the catholic church
during the past twenty years liberation theology birth control women s ordination
inclusive language radical feminism homosexuality religious pluralism human rights
in the church and the roles of bishops and theologians one man has stood at the
dead center of all these controversial issues cardinal joseph ratzinger a teenage
american pow as the third reich crumbled and a progressive wunderkind at the
second vatican council ratzinger for twenty years has been head of the congregation
for the doctrine of the faith until 1908 known as the sacred congregation of the
roman and universal inquisition or holy office the book goes a long way toward
explaining the central enigma surrounding ratzinger how did this erstwhile liberal
end up as the chief architect of the third great wave of repression in catholic theology
in the twentieth century based on extensive interviews with ratzinger s students and
colleagues as well as research in archives in both bavaria and the united states allen s
account shows that ratzinger s deep suspicion of the world his preoccupation with
human sinfulness and his demand for rock solid loyalty to the church run deep they
reach into his childhood in the shadow of the nazis and reflect his formative
theological influences augustine bonaventure and martin luther rather than the
world affirming thomas aquinas when the cardinals of the catholic church next

gather in the sistine chapel to elect a pope allen argues they will in effect be deciding whether to continue the policies ratzinger has been the central force in shaping the servility of the sycophants of those who shy from and shun every collision who prize above all their calm complacency is not true obedience what the church needs today as always are not adulators to extol the status quo but men whose humility and obedience are not less than their passion for the truth men who love the church more than the ease and the unruffled course of their personal destiny joseph ratzinger 1962

collects speeches delivered by joseph cardinal ratzinger between 1963 and 2004 arranged thematically on the subjects of the creed the church christian faith and tributes

arranged according to themes from scripture and the liturgical seasons these meditations provide a wonderful source of inspiration and prayer cardinal ratzinger emphasizes the importance of uniting charity with truth to help awaken in each reader the courage and generosity to become co workers with the gospel

in this profound and illuminating work joseph cardinal ratzinger turns the gaze of an accomplished theologian upon the crucified savior this synthetic and meditative work is theological without being abstract or dry and spiritual without being sentimental the pierced heart of christ must be the heart of theology and christian life as well proceeding from the prayerful dialogue between the incarnate son and his eternal father joseph ratzinger shows how one can approach the mystery of the heart of christ only through the imitation of this prayer to know and understand jesus we must participate in his prayer the prayer of christ must be the interior life of all who are joined to him in his body the church using the old and new testaments and the church fathers ratzinger shows that the ecclesial community the church was born from the pierced heart of christ on the cross

foreword by james schall s j cardinal ratzinger addresses the challenges and responsibilities that both the church and society in europe face after the collapse of marxism both liberalism and marxism have denied religion the right to have any influence on public affairs and the common future of humanity since there is also a great spiritual emptiness growing in the west with the increased secularization consumerism and hedonism ratzinger's comments apply as much if not more to the united states as well with the downfall of marxism religion has been discovered anew as an ineradicable force for both the individual and society while there is renewed interest in religion the dangers also exist to lay hold of religion as an instrument to serve various political ideas ratzinger whose theological work has often dealt with the "reasons for our faith" reflects upon the various problems facing humanity at this turning point of our history and offers genuine hope based upon a deep christian faith he also addressed the critical role that the church has in relationship to the world and the essential task of bringing christ back into our culture "in the present situation it is an absolute obligation for the theologian and for the pastor of the church to enter the disputation about the correct understanding of the present time and to both clarify faith's own proper sphere and to do justice to the share of responsibility that lies on him at this hour" joseph cardinal ratzinger

pope francis in his foreword states that one of the major themes in the thought of joseph ratzinger is the relationship between faith and politics his firsthand experience of nazi totalitarianism led him even as a young student to reflect on the limits of obedience to the state for the sake of the liberty of obeying god in support of this he quotes from one of ratzinger's texts presented in this volume the state is not the

whole of human existence and does not encompass all human hope ratzinger explored various aspects of this subject in books speeches and homilies throughout his career from his years as a theology professor to his tenure as prefect of the congregation for the doctrine of the faith and most recently as pope benedict xvi this is the only book that collates all of his most significant works on political themes inside one volume

essay from the year 2011 in the subject theology historic theology ecclesiastical history course the life of josef ratzinger language english abstract this little book was originally a series of speeches on the theologian joseph ratzinger and former pope benedict xvi at holy cross catholic church in atlanta georgia in the united states it is a biographical historical approach to this important historical personality leading up to the year 2005 the election to the highest office of the catholic church the six chapters span from ratzinger s youth in bavaria his close relationship with his family and brother georg his early priesthood his theological development his experiences as a professor in the sixties his years as archbishop of munich and his time in rome as prefect of the congregation for the doctrine of the faith what this biographical study can offer is a brief introduction to essential components of ratzinger s life and career

it is difficult to overestimate the impact that pope benedict xvi has had on the catholic church he served the people of god as a priest an advisor at the second vatican council a bishop a cardinal prefect of the congregation for the doctrine of the faith and the 265th pope but in addition to his influence as a churchman joseph ratzinger also stands out as one of the most significant thinkers in recent history he is the author of more than sixty books numerous articles and countless homilies catholics and non catholics alike have been inspired and challenged by his theological writings for many people it can be difficult to know where to begin the pope benedict xvi reader offers a point of entry for those seeking a deeper engagement with his teachings whether you have read little of his work or have enjoyed it for years this wide ranging collection draws together some of the finest excerpts from ratzinger s interviews speeches audiences homilies and books with insights on a variety of topics including the trinity the person of jesus christ the church mary and the saints the bible the liturgy prayer the second vatican council and the challenge of living the faith in the modern world what emerges is a fascinating portrait of a man whose legacy of scholarly erudition pastoral gentleness and deep and abiding love for christ and his church continues to awe the world

this is a major work on the theology of joseph ratzinger by a highly regarded german theologian priest and writer since his election to the papacy ratzinger s theology and in particular his ecclesiology theology of the church has been in the limelight of theological and ecumenical discussions this work studies in detail ratzinger s ecclesiology in the light of vatican ii against the ongoing debate about what vatican ii really meant to say about the life of the church its liturgy its worship its doctrine its pastoral mission and more

the second vatican council says we ought to try to discover a new reverence for the eucharistic mystery something is happening that is greater than anything we can do the liturgy is the summit toward which the activity of the church is directed it is the font from which all her power flows this profound statement about the eucharist stands at the center of this book by cardinal ratzinger he compellingly shows us the biblical historical and theological dimensions of the eucharist the cardinal draws far reaching conclusions focusing on the importance of one s personal devotion to and adoration of the blessed sacrament for the personal reception of communion by the individual christian as well as for the life of the church for ratzinger any

transformation of the world on the social plane grows out of the celebration of the eucharist he beautifully illustrates how the omnipotent god comes intimately close to us in the holy eucharist the heart of life
